CHECKLANE BLITZ · WHERE WE STAND

Checklane blitz

25 hours per store. It keeps running on top of Compass.

Stores not finished yet

- Any store that hasn't completed the blitz **gets scheduled again next week.**
- I'm bringing in **extra InstaWork help** so we have the coverage to close it out.

The rules haven't changed

- A check stand is **100% complete the same day** it's started. If not, go back the next day.
- One shelf comes off the seven-shelf Liberty snack endcaps. The Apple accessories fixture comes out and its items move to the Kroger Personal Finance side panel.
- Removed shelves and fixtures stay with the store.
- Planograms and mapping are in the dump bin.

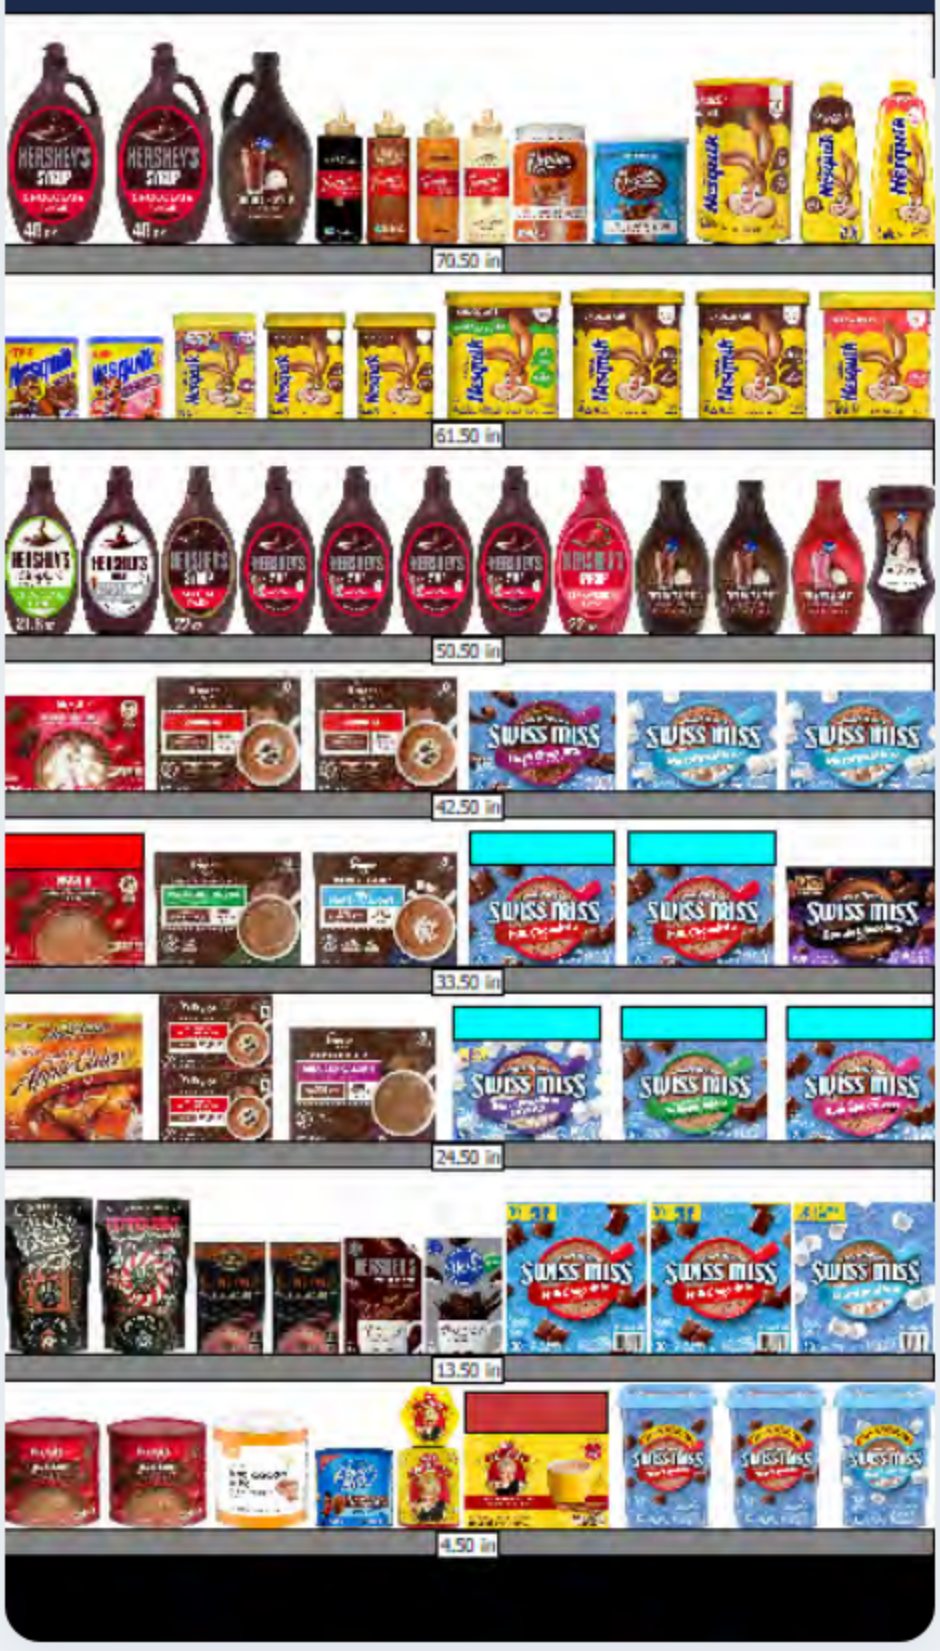

Backlog first. Don't let this week's leftovers roll into Week 3, where the blitz gets heavy again.

GROCERY · UPDATE

Cocoa

C028 · 2 hours · Shelf heights are moving

BEFORE

AFTER

What changes

- **Syrups move to the top two shelves.** Cocoa mixes sit on shelves one through four.
- Every 3ft and 4ft planogram has shelf moves. **Execute them as diagrammed.**
- The test store **started at the bottom and worked up.** It took two hours. Do the same.
- A conversion file cleans up versions, so your planogram name may look different. Trust the mapping.

GROCERY · UPDATE

Milk Byproducts

C061 · 4 hours · **20 MIN** refrigerated

The flow

- **Ricotta moves to the top left** of the set.
- Plant-based, organic and lactose-free items **come together** wherever the planogram allows.
- Squeeze sour creams go **over/under**.
- Two new Good Culture 16oz items land in the VX sets.

Strips

- Full strips and full tags.
- Refrigerated Hispanic and Refrigerated Italian get new item strips. **Record those under Milk Byproducts.**

20 minutes. Nothing sits out on a cart longer than that. Stage the pulls so the cooler empties and refills in short passes.

GROCERY · UPDATE

Vinegar & Cooking Wine

C133 · 3 hours on the books · Test store finished in 1

CURRENT

NEW

What changes

- **Shelves four through six reflow by brand,** Kroger leading on the left. Minor movement on the lower shelves.
- The 1-gallon **Kroger Multipurpose Cleaning Vinegar leaves this set** and goes to Household Cleaning.

GROCERY · NII

Refrigerated & frozen NIIs

20 MIN applies to everything on this frame.

C038 Frozen Pizza — 2 HRS

- Red Baron Crunchtime is expanding into more doors. **Verify your store is in scope** on the planogram before you cut it in.
- Four Kroger Rising Crust pizzas change suppliers. **Confirm the correct supplier product is on the shelf** during the reset.

C067 Butter & Margarine — 1 HR

- **Vital Farms butter is out.** Slow-moving margarine thins out too.
- Use the space from the deletes to **expand Kerrygold.** Challenge and Danish Creamery fill the gaps.
- NF Refrigerated Beverage and NF Refrigerated Vegetarian strips **record under Butter.**

C451 Bulk Deli Meat — 1 HR

One new item. Standard NII.

GROCERY · NII

Shelf-stable NIIs

Standard new item introductions, with a few things worth knowing.

C110 Dry Potatoes & Stuffing — 2 HRS

- **Pepperidge Farm and bagged stuffing come out** of the set.
- Kroger Au Gratin and Scalloped boxed potatoes get a new UPC and size. **Treat them as a hard add and a hard delete.**
- Dry Sauce and Gravy strips record under Dry Potatoes.

C075 Multipack Cookie/Cracker — 2 HRS

- Lance family packs and Paw Patrol graham snacks come in. **The Ritz multipacks come out.**

C003 Can Beans — 2 HRS

- Standard NII. A couple of size changes on existing cans.

C004 Can Meat — 1 HR

- One in, one out, one change.

C384 RTD Coffee — 1 HR

- Standard NII. Coffee and NF Refrigerated Beverage strips **record under RTD Coffee.**

HEALTH & BEAUTY · NII

Vitamins

C180 · 3 hours on the books · Test store ran 3.5

What the test store saw

- Minor movement on shelves one through four. **Shelves five through eight mostly shift left.**
- They needed **four extra pushers.** Have spares on the cart before you start.
- Spacing is tight but it works. Don't force it; check the planogram when something won't fit.
- A complete set of strips came in.

Where to look

- Planograms and mapping are in **A Useful Folder** under P10W2 Vitamins. Use them for placement.
- Miscellaneous HBC strips **record under Vitamins.**

C170 Smoking Cessation 1 HR

- Two in, two out. Standard NII.

NATURAL FOODS · NII

NF Vitamins

C678 · 8 hours on the books · Test store finished in 6

The order of operations

- **Pull the deletes first.** Then place the new items.
- Seventy-two changes in this set, mostly UPC, size and description updates. **Work the change list carefully.** That's where the misses hide.
- Movement is side to side with very little vertical change.

Plan for the cardboard

- Every bay gets at least five strips; some bays get all of them.
- The test store filled **about five banana boxes of close-outs.** Plan the handoff before the cart looks like a small cardboard city.

Where to look

- Planograms and mapping are in **A Useful Folder** under P10W2 NF Vitamins.
- 391 has its own store-specific planograms. **Go by the planogram ID, not the name.**
- Shortening & Oil, NF Baking and NF Condiments strips **record under NF Vitamins.**

PHARMACY · UPDATE

Diabetic Supplies

C250 · 3 hours · Only five of our stores have the set

CURRENT

NEW

Stores 23, 53, 215, 391 and 658

- **Home Testing items move into this set,** mostly on the top shelf. Their standalone set goes away.
- Every District 8 version is **NO PEN NEEDLES.** If a planogram says "with pen needle," it isn't yours.
- Slight shelf moves for item heights. Full strips and full tags.
- Adult Nutrition strips record under Diabetic.

> The other five stores don't carry this set. Nothing to move there.

PHARMACY · NII

Pharmacy NIIs & the cane rack

Three one-hour sets and one fixture that keeps collecting hooks.

C248 Mobility — 1 HR

- Standard NII. Adult Nutrition strips record here too.

C251 Apothecary — 1 HR

- Standard NII, including the new case work.

C252 Medical Socks — 1 HR

- Nine new items, nothing out. Standard NII.

Drive Medical cane rack

- **No small peg hooks on the fixture.** Not when you build it, not later.
- If hooks are hanging off the side when you visit, **remove them.** Every visit.
- The survey is in the Retail Logic visit. **Photos of both sides** of the display are required.

Materials & holds

What's in the boxes, and what's on hold.

Vestcom boxes

- Delivered to **all ten District 8 stores.**
- Non-Compass strips and tags ride inside with the rest of the set. **Set vendor and non-Compass materials aside** for the right team.
- Planograms stay on the Compass cart.

Meat pushers: postponed to Period 11

- **Do not start pusher installs.** We start once parts are available.
- When we do, **each set gets finished once all of its parts are in the store.** No half-built sets.

Signouts

- Deli strip and tag events are keyed as non-Compass. Make sure the store signs them out so ClickList locations update.
- Go-back strip orders are keyed as remodels. **Email me once they're installed** so they can be signed out.

Store callouts

Store 215

- **Relay window: Oct 12 – 22.** Treat Compass sets as NIIs while the relay is on, and work with the relay manager.
- Can Beans, Can Meat and Dry Potatoes are **planogram-only** there this week.
- Home side count **Wed 10/21.** Apparel count **Thu 10/22.**

Store 53

- Home side count **Mon 10/19.** Apparel count **Tue 10/20.**
- Center Store second count **Thu 10/22.**

All stores

- If a store asks us to set on a later date, **email me with the manager's name and title.**
- Remodel and relay stores: work with the Relay Manager.

DISTRICT 8 · EVERY WEEK

Standing reminders

Before you close the shift

- **Tags installed correctly, every planogram complete,** and photos that show it without making anyone squint.
- Signoff photos go to PROD under Compass Maintenance. Close, clear, good light. Fill out the signoff form completely.
- Pull expired product, label it, box it, give it to the store.
- Digital shelf labels stay put.

The clock

- Cut-in shifts closed by **9 AM.** Out of the store by **2:30.** EOD sent by **3 PM,** store number in the subject line.
- Running behind on any of those? **Tell me as soon as you know.**
- Need InstaWork support? **Tell me by Wednesday morning.**

> Hotline or helpdesk contact gets **cleared with me first.**

LOOKING AHEAD · NEXT WEEK

Period 10 Week 3

About 31 hours of Compass, with the Checklane Blitz continuing on top.

Pegs. Find them now.

- **Personal Care Appliances:** 23, 28, 215 and 391 need **6 extra magna bar pegs** on hand.
- **Hair Care Accessories:** 19, 215 and 682 need **7 extra pegboard pegs** on hand.

Fresh — 20 MIN

- **Convenient Snacking** is a produce set. It goes first thing.
- Simple Truth kimchi **leaves Lunchmeat and moves to Convenient Snacking** in produce. Claussen pickles take its spot.
- Snackmeat reflows to brand-block. Ham Bar gets an Ingredient Meat section. Frozen Meatless now leads with MorningStar.

Also on the schedule

- Bleach changes department from D01 to D03, with shelf-height moves in some stores.
- Salad Dressing drops the entire Wishbone line. Deodorants is a four-hour NII. NF Chips & Snacks is six.

LOOKING AHEAD · FURTHER OUT

Further out

Period 10 Week 4

About **34 hours** on the vendor schedule.

Period 11 Week 1

- About **35 hours.**
- **Meat pushers** are targeted here. We start when parts are available and finish each set once all its parts are in the store.

Period 11 Week 2

Blackout week on the vendor schedule.

> Backlog that reaches the blackout week has nowhere to go. **Clear it before then.**

The short version

Key facts

- **64 hours:** 39 Compass + 25 Checklane Blitz. No priority sets. Backlog, current week, checklanes.
- **Blitz:** stores not finished get scheduled next week, with InstaWork help.
- **Cocoa:** syrups to the top two shelves. Work bottom up.
- **Vinegar:** shelves 4–6 by brand, Kroger left. Cleaning vinegar leaves for Household Cleaning.
- **Vitamins:** shelves 5–8 shift left. Bring four spare pushers.
- **NF Vitamins:** pull the deletes first. Work the 72 changes. 391 goes by planogram ID.
- **Diabetic:** 23, 53, 215, 391, 658. Home Testing items to the top shelf. All NO PEN NEEDLES.
- **Cane rack:** no small peg hooks. Remove strays. Survey with both-side photos.
- **Meat pushers:** postponed to Period 11.
- **Pegs for Week 3:** 6 at 23, 28, 215, 391. 7 at 19, 215, 682.

Questions, or running behind? Tell me early.
That's the week. Go set it.
